Denpasar, May 14th, 2019

Dear Viola,  
The group of Earth like Heaven,

Thank you very much for your email. It is a pleasure to meet you all and we welcome you to perform, to Shamanic voice& percussion workshop and to collaborate with us.

We at Bali Life Studio have a similar vision it sounds like, our space is used daily for dance, martial, breath work and yoga classes but we also put on and host music dance and healing events, are very active in performances and working creatively with different communities.

We have an 8x9 meter studio with suspension wooden floor that is covered with thatch roof but open in all sides that can accommodate 13 people for classes or more for events as well as a larger open space on the ground outside and I am in contact with Supriyati about other details.

We are looking forward to working together here in Bali and also in Berlin.

Let me know what else I can help you,

Much Love,

Tebe Ambara
