Dear Viola,

My name is Adi, Founder of Kulidan Kitchen I Space and Founder of Sanggar AnakTangguh

Thank you very much for involving Kulidan Kitchen I Space in this program. To be more detail, it would better for us to meet in Kulidan Kitchen, as well as your representative member can see the place, to find ideas how to respond this space with art performance and workshop that your team plan.

For giving children workshop, we can help you to find participants of children who often do activities in Kulidan Kitchen and also can involve children at school around Guwangvillage. For additional info you can also open some activities that exist in our studio. www.anaktangguh.wordpress.com. I can tell you some pictures of the kid activities that we used to do.

I can provide you some recommended artists which often support us at Kulidan Kitchen I Space if you need to collaborate with.

Thank you very much for your corporation and appreciation.

Best regards

I Komang Adiartha
